

APPRENTICE DECK & ENGINE OFFICERS

YOUR JOB DESCRIPTION

We are expanding our present fleet, with specialised services in the field of offshore assistance and environmental protection. We are currently looking for young future seagoing crewmembers interested to start with offshore activities for our recruitment database to fill in future vacancies.

YOUR PROFILE

- Recently/future graduated apprentice deck or engine officer, without experience in the offshore but motivated to learn and to join our offshore training program.
- Young and motivated deck or engine officer (1 year sea experience), without experience in the offshore but motivated to learn and to join our offshore training program.

WE OFFER

- A complete extensive offshore training program starting from apprentice officer, where you will gain experience for promotion and be part of the URS offshore team.
- A dynamic company in which you will be entrusted with real responsibilities.
- A remuneration package with an attractive pay and extralegal benefits such as hospitalization insurance and group insurance.
- A very attractive working regime (6 weeks on / 6 weeks off).

OUR GOAL

To train you to be part of our offshore staff on board of our present and new build vessels.
